

Лабораторна робота №4

Лещука Олександра

Мій сайт виглядає однаково у всіх зазначених десктопних браузерях.

Проходить валідацію через зазначені валідатори

Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for uploaded file index.html

Checker Input

Show ☒ source ☐ outline ☐ image report

Check by Файл не выбран

Uploaded files with .xhtml or .xht extensions are parsed using the XML parser.

Document checking completed. No errors or warnings to show.

Used the HTML parser.

Total execution time 6 milliseconds.

CSS lint found **0** errors and **6** warnings. How can you fix it? See the details below.

Warnings

JSLint was unable to finish.

Use spaces, not tabs.

```
var state = true;
```

1.1

За допомогою функції `animate` добавив на сторінку 3 анімації. Добавив можливість запустити і відмінити анімацію натиснувши відповідну кнопку.

```
$( function() {
    var state = true;
    $( "#button" ).on( "click", function() {
        if ( state ) {
            $( "#effect" ).animate({
                backgroundColor: "black",
                color: "white",
            }, 1000);
            $( "#img" ).animate({
                height: "220px"
            }, 500);
            $( "#img" ).animate({
                width: "400px"
            }, 500);
            $( "#block" ).animate({
                left: "+=70%"
            }, 1000);
        }
        else {
            $( "#effect" ).animate({
                backgroundColor: "#fafafa",
                color: "black",
            }, 1000 );
            $( "#img" ).animate({
                height: "110px"
            }, 500);
            $( "#img" ).animate({
